04 • DESIGN BRIEF

Design Brief

How every screen should look: colours, type, the main pieces, and the rules that keep it consistent.

Updated 19 Oct 2026 | Live at sali.one

Planning documents for the Sali app

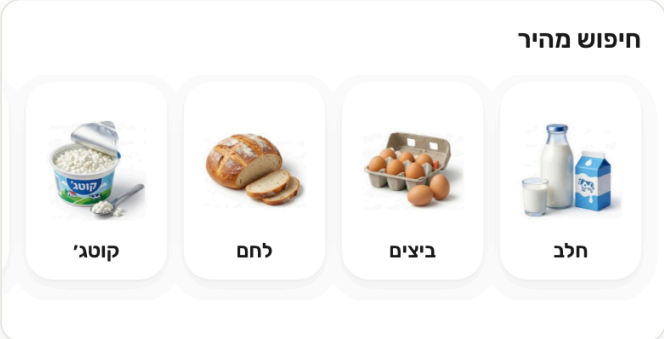

GitHub: supermarket-prices | Live site: sali.one

IN ONE MINUTE

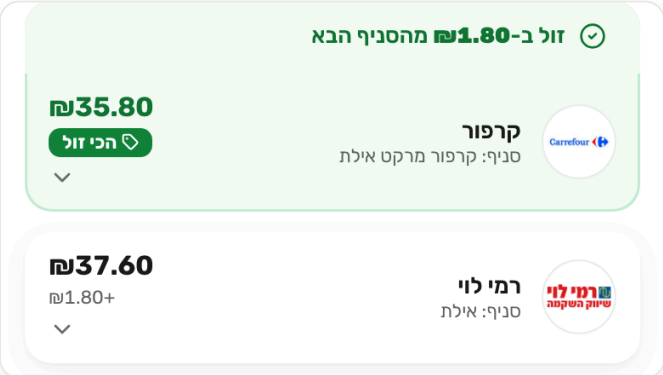

- A **fresh, clean and colourful** look: a white page, borderless cards on soft shadows, big product photos, round store logos.
- **One green** for every action, soft green for “cheapest”, orange for deals. Small, quiet type.
- Right to left, phone first. The same part looks the same on every page.

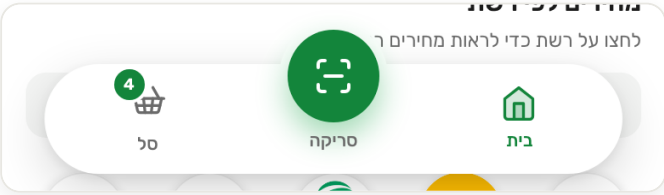

Banner bright photo, calm green panel, white button

Quick search square product photos

Store row round logo, cheapest on pale green

Bottom bar floating capsule, raised scan button

01 Colours

Taken from the live site's style file.

Sali green
`#14A044`
The + buttons, main button, active tab.

Deep green
`#118438`
Text and icons on light green.

Pale green
`#F1FAF4`
The "cheapest" row and highlights.

Banner green
`#3E8C4F`
The calm panel behind banner text.

Orange
`#F97316`
Deal accents and savings.

Pale orange
`#FFF4E8`
The saving tile.

Ink
`#1B1B1B`
Main text.

Soft grey
`#F4F5F4`
Flat search fields.

Red
`#C0382F`
Errors only.

02 Type, layout and the main pieces

Element	Rule
Type	Rubik, small and quiet: 11 to 14 px does most of the work; text fields are 16 px so phones never zoom. Right to left. Prices always ₪ with two digits.
Cards and spacing	White, no outline, soft shadow, corners 10 to 20 px, spacing in steps of 4 px. Touch targets at least 44 px; the notch and home indicator are respected.
Header and bottom bar	A flat white header (logo, city chip, basket pill, a search icon once the page's search box scrolls away). A floating white capsule with Home, a raised green Scan circle, and Basket.
Banner and quick search	Three slides (compare, scan, deals) with a bright photo, a calm green panel, white text and button. Ten square product photos for quick search.
Product and deal cards	A big photo, name, "cheapest at" with the chain's round logo, price per 100 g or litre when useful, a green add button. Deal cards add a saving pill (for example -40%).

Store row	The same on the product and basket pages: round logo, branch, price, gap from cheapest; the cheapest on pale green with a tag; promotion line and “old price” warning.
Feel	Items fly to the basket icon, loading is a calm shimmer, pages fade in. Keyboard focus rings and labels on every icon button.

03 Coming next: the map view

Part	Intention
Pins	A rounded label with the **basket total**; the cheapest is pale green with the tag; stores missing items are grey. Clusters when zoomed out.
Phone layout	The map fills the screen and the store list is a sheet sliding up, with a clear Map / List toggle. Stores without a position are listed under the map.
